Security & Password Information Notes:

- Standard Password:** All standard and seeded accounts use the default password password123 for login authentication.
- Authentication Format:** Users can log in using their assigned **Employee ID** (e.g., AD030120, MN1297, EMP8749, RW1300) and Password.
- Password Hashing:** Passwords are cryptographically protected in the database using one-way bcrypt hashing (cost factor 12) in compliance with enterprise security governance.
- Password Reset:** If any user has modified their password or forgotten it, an Administrator can reset it directly from the **User Management** console or via 6-digit Email OTP.
